

PICKUPS LIMITED
Monthly Meeting
5-14-09

Meeting called to order by President Steve Stillwell at 7:15 pm.

Host Rich Miller read roll call: 34 - Members 2 guests. Prospective Member 0. JJ came with his custom 54. Jim Moore from the Pomona chapter.

Secretary read the minutes and they were approved.

Committee Report:

Safety:

Rudy talked about doing inspections at his house or your house for those who missed inspection in March. He passed out a sign up sheet for members to set up appointments. Remember trucks need to be inspected to receive club plaque.

National Council:

The meeting was primarily about the North South show. They are concerned about the number of members that are not attending. Jim Moore visited some of the chapter meeting to try and figure out what the problem is. Club plaques were also discussed. The price is about \$30 for a polished one. Not sure how many were ordered.

North/South:

Jim attended our meeting trying to find out what the problem was with OC's low attendants to the show. He wanted to get some feedback from the members. It seems that there were a few things that were mentioned, the cost to attend, the length of the show, and the area the show is held were probably the big things discussed. It was never advertised but if you wanted to make a one day show of it, there is a \$30 mini packet you could purchase. It includes a shirt and dash plaque. Jim also reminded the club that one of the primary things the show helps pay for is insurance for most of the Pickups Limited chapters. There was a hand count and it looks like about 9 members will be attending.

5-14-09

Public Relations/Activities:

Chris started off by giving us a review of the shop tour. There were no break downs but there were a few "we just passed the turn". Everyone made it to all the stops. They got a good lesson on blowers from Don Hampton. They got to see how a professional shop operates at Hollywood Hot Rods. BS industries also showed them how a custom hot rod shop functions. They were also treated to a big momma pizza for lunch. Then it was off to Auto/Aero books store. It was a great time for all that attended.

We hosted the first John Force show for the summer. We had a good turnout of members and hot rods for the show. The Ruby's cruise was also a good event we hosted. It was a little chilly but we still had fun and it was for a great cause. Ron Jacobs had flyers for a VA car show in Long beach. As usual refer to the latest newsletter for upcoming events.

Western National:

Last month we officially moved the 2010 show from June to April. It turns out that created some scheduling conflicts with our vendors so it's been moved back to June for now. We want vendors like the Truck Shop and Pat Ford to attend. Because June can be hot, there were health concerns. There is talk of creating a cooling off tent area for member and guest to cool off if they should be overcome by the heat. Ed also passed out a work duty sign up sheet, he wanted members to assign themselves to a position rather than be assigned. He then read off a list of things and supplies we need for the show, a generator, some chairs, fans to mention a few.

Old Business:

- We got a show of hands for coffee cups. It looks like it's just a matter of time we will have some.

New Business:

- Birthdays for May, Dale, Carlos, Sam R, Abe, Joanne S, Christine T.
- Dan Cangro is now the proud owner of Jeff truck.
- Membership dues, if you owe them, please pay them.

Meeting adjourned at 9:15 pm.

Respectively submitted by your Secretary Larry Lopez
