

# New Discounts and Benefits for Pickups Limited Members

Since 1950 Torco Race Oil has been solving all types of high performance lubrication issues. Current motor oils with API SM rating lack the critical additive ZDDP [zinc] to protect your high performance or classic engine. Torco has the right oil or zinc additive for you and is proud to offer all Pickup Limited members a 20% discount on all Torco products. Simply visit [www.missionperformanceproducts.com](http://www.missionperformanceproducts.com) and review all the products available. To place your order, click SCCA & NASA orders, fill in the blanks and the product will be shipped direct to your home.

PS: Disregard the requirement to place the Torco decals, this is voluntary for non-race vehicles.
